pMACS 4.1

Vector Map

Single Cutting Restriction Sites

Vector Details:

nt 4318 (ClaI) to nt 434 (NotI):	SV40 early promoter/enhancer, origin of replication, splice donor/splice acceptor site.
nt 442 (EcoRI) to nt 1797:	Truncated human CD4 cDNA.
nt 1813 (HindIII) to nt 2060:	SV40 polyadenylation site.
nt 2061 to nt 4317:	pUC backbone: bacterial origin of replication and Ampicillin resistence gene.

MA0076.01

Note: This map shows known restriction sites.
