

Miltenyi Biotec

Advance your flow cytometry workflow

Express Modes: Automated gating and reliable analysis

Worried about bias in your flow results? Intimidated by mastering data analysis? Discover the solution with Miltenyi Biotec's Express Modes – unique add-on features for your MACSQuantify™ Software! Benefit from preconfigured experiment settings, automated gating, and minimal hands-on time. Reduce errors and ensure reliable and reproducible results.

► miltenyibiotec.com/expressmodes

Choose from three groups of Express Modes for your MACSQuant® Analyzer

Included Express Modes:

Perfectly complement our kits (e.g., MACSPlex Cytokine Kits or 8-Color Immunophenotyping Kit, anti-human, REAfinity®).

Add-on Express Modes:

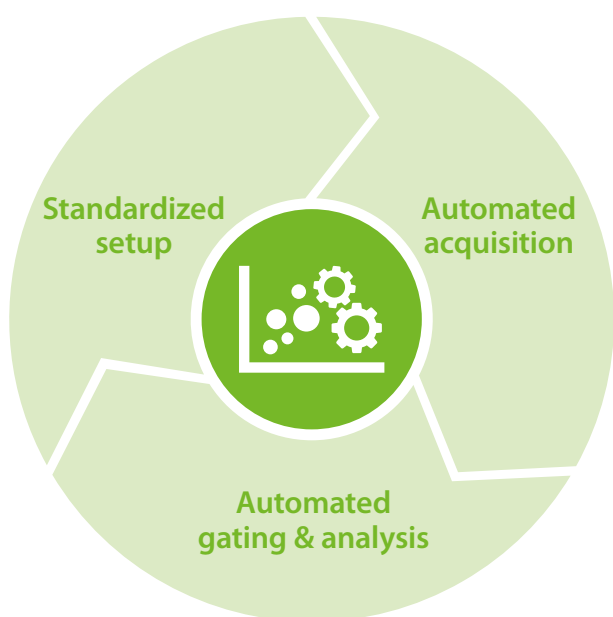

Support in-process and quality control (IPC/QC) for cell manufacturing (e.g., CAR T, CAR NK).

Custom Express Mode:

Tailor your solution precisely to your needs.

Say goodbye to biased flow analysis and welcome flow cytometry automation

Start with standardized setups, featuring predefined experiment settings like flow rate or uptake volume. Simply load your samples, press play, and let your MACSQuant Analyzer handle the rest. It ensures automated gating and analysis, providing a statistic table with all relevant experimental results. Streamline your workflow effortlessly.

Leverage our expertise with over 30 unique Express Modes finely tuned to your flow cytometry needs. Each application is rigorously tested on diverse datasets to create optimized gating algorithms. Exclusive use of real lab-generated data – from diverse sources such as whole blood, leukapheresis, or PBMCs – ensures the accuracy of our automated solutions. Trust in authenticity for unmatched flow cytometry performance.

This makes Express Modes the ideal solution for flow cytometry assays in a regulated environment.

Trust in robust support for cell therapy analysis

Our expertise in cell therapy ensures the effectiveness of Express Modes in the manufacturing process and seamless integration with the CliniMACS Prodigy® Platform. In cell manufacturing, continuous flow cytometry-based quality control is essential. Miltenyi Biotec's reliable Express Modes make this task easy and deliver consistent and reliable results.

Design your automated flow experiment!

Have a specific application in mind? Customize the automated gating and analysis to your needs. Whether it's adjusting an existing Express Mode with different markers, statistics, or gating strategy, or creating a completely new application based on your data, Miltenyi Biotec offers a Custom Express Mode Service. Define your requirements and let us tailor the solution for you. Contact us to learn more.
