

Vector Details:

nt 4318 (ClaI) to nt 434 (NotI):
nt 442 (EcoRI) to nt 1797:
nt 1813 (HindIII) to nt 2060:
nt 2061 to nt 4317:

SV40 early promoter/enhancer, origin of replication, splice donor/splice acceptor site.
Truncated human CD4 cDNA.
SV40 polyadenylation site.
pUC backbone: bacterial origin of replication and Ampicillin resistance gene.

Note: This map shows known restriction sites.
